

# WHICH SCOOTER SHOULD I CHOOSE?

Visit [www.micro-scooters.co.uk](http://www.micro-scooters.co.uk) for more information.

## SIT AND SCOOT 3 in 1

ideal for AGES 1-3 YEARS  
83-98cm

One scooter that does three things! Starting out as a ride on, then a toddler scooter with a shorter handlebar, and finally a Mini Micro scooter with a traditional handlebar.

## MINI MICRO

ideal for AGE 3-5 YEARS  
98-110cm

A great and solid beginning for new scooter riders, with 3 wheels and tilt and lean steering making it easy to learn the scooting basics. The lightweight frame allows younger children to lift the scooter on and off kerbs.

## MAXI MICRO

ideal for AGE 6-12 YEARS  
110-152cm

With 3 wheels and tilt and lean steering, the Maxi is a perfect follow on from the Mini. A heavier scooter with adjustable handlebar height means the Maxi is fantastic for older children.

## STUNT SCOOTER

from beginners  
to expert

These 2 wheeled scooters have been designed by some of the best pro riders in the world. Appropriate for every day scooting but with the added bonus of being suitable to perform jumps and tricks. And all with the Swiss Micro quality you know and trust.

## ALUMINIUM KICKBOARD

ideal for AGE 10 TO ADULT  
110cm +

A great follow on for older children or adults who have fallen for the three wheeled tilt and lean style. A joystick handlebar can provide an extra challenge. A full range of Micro Kickboards are available online, including T-Bar versions.

## ALUMINIUM SCOOTER

ideal for AGE 5 TO ADULT  
110cm +

We believe every child should have a scooter as it is an easy and fun way to get active. We have two and three wheel scooters to choose from all designed by the original and best scooter brand in the world.
